SUMMARY

Computer Science undergraduate at VIT Bhopal University with strong foundations in Data Structures and Algorithms and hands-on experience building scalable full-stack applications using the MERN stack. Proficient in C++, Java, and Python with experience in backend development, REST APIs, authentication, and database design. Solved 400+ coding problems across major platforms and seeking Software Development Engineer opportunities.

EDUCATION

Vellore Institute of Technology, Bhopal

2023 – 2027

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.5 / 10

PROJECTS

Mavelo Luxury Car Rental Web Application

GitHub

- Built a full-stack MERN application using React.js, Node.js, Express.js, and MongoDB.
- Developed secure booking workflows, REST APIs, and backend services for car rental management.
- Designed responsive UI using Tailwind CSS and Framer Motion.
- Integrated Nodemailer for automated booking confirmation emails.

Road Damage Detection (Machine Learning)

GitHub

- Developed a computer vision system using TensorFlow and Keras to detect and classify road damage.
- Built preprocessing and data augmentation pipelines for improved model generalization.
- Trained CNN models on real-world road images and evaluated performance using accuracy and recall metrics.

Smart Attendance System (Face Recognition)

GitHub

- Automated attendance tracking using real-time face recognition with OpenCV.
- Stored attendance records in a structured database with timestamps.
- Generated attendance reports for efficient tracking and validation.

EXPERIENCE

Tuned Society — Full Stack Developer

Feb 2026 – Present

Startup

- Developed a two-sided marketplace connecting users with verified garages and service providers.
- Built scalable backend services using Node.js, Express.js, MongoDB, and REST APIs.
- Implemented vendor onboarding, service listings, booking workflows, and geolocation search.
- Integrated real-time notifications using Email and WhatsApp APIs.
- Worked with authentication, authorization, API integration, and database design.

TECHNICAL SKILLS

Programming Languages: C++, Java, Python, JavaScript, TypeScript

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Cookie-based Authentication, Middleware, MVC Architecture

Databases: MongoDB, MySQL

Core CS: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, System Design

Tools & Platforms: Git, GitHub, Postman, Docker, VS Code

Cloud: AWS, Azure

Machine Learning: TensorFlow, Keras, NumPy, Pandas, Scikit-Learn

CERTIFICATIONS & ACHIEVEMENTS

- AWS Technical Essentials – AWS
- AZ-900 – Microsoft Azure Fundamentals
- Bits and Bytes of Computer Networking – Coursera
- Solved 400+ coding problems across LeetCode, GeeksforGeeks, and Codeforces.
